PEXBA is a 100% Mexican company over 25 years of experience in the manufacturing and distribution on the transformation of polyethylene materials, offering a wide range of customized packaging products.

CA-SA PACKING and PEXBA are sister companies committed to delivering comprehensive packaging solutions.

Together, we provide an integrated approach from raw material to finished solution ensuring quality, efficiency, and reliability at every stage.

Protective Foam Netting

- Ideal for fruits, glass bottles, and other fragile items
- Lightweight, flexible, and easy to use
- 2.75 inches wide; length customized to your needs

Protective Foam Packing Peanuts

- Cushioning for maximum product protection
- Absorbs shocks and prevents movement during transit
- Suitable for shipping, storage, and logistics

Polyethylene Sheets

- Ideal for covering, wrapping, and separating products
- Custom sizes and anti-static options available
- Suitable for industrial and commercial use

Bubble Wrap

- Available in bag or sheet format
- Flexible and easy to wrap around products
- Ideal for fragile and delicate items.

Polyethylene Foam Planks

- Available in a variety of densities and thicknesses
- **Density:** D-1.2 to D-6
- **Thickness:** 0.500" to 4" inches
- **Dimension:** 48" x 108"
- Ideal for protection, insulation, and packaging applications
- Available in anti-static, black, or a wide range of custom colors to meet your needs

Film-Laminated Polyethylene Foam

- Provides a premium finish and better appearance
- Available with single- or double-sided lamination
- Custom logo or design imprinting available
- Offered in multiple thicknesses: 1/32", 1/16", and 1/8", or customized to your requirements

Foam Corner Protectors

- Designed to protect edges and corners from impact damage
- Optional lids and inserts available based on customer requirements
- Ideal for furniture, appliances, glass, and delicate items

Polyethylene Bags

- Provides protection against dust, moisture, and contaminants
- Ideal for industrial, commercial, automotive and food applications
- Custom sizes and anti-static options available

Our products are available in anti-static (AS) and custom color options to meet specific application requirements.

Why Choose Us?
